SINGLE MALT WHISKEY

- **Amrut Fusion**

  While the whisky threatens to be completely overpowering, the balance on the finish is nothing short of ground breaking - 19

- **Amrut Peated Indian**
  Aste: Amrut peated malt is made with barley peated and malted in Scotland, but distilled in Bangalore and aged in a combination of new and old American oak barrels. On the palate the immediate molasses sugar is followed by notes of peat and followed by a crystalline depth to the finish - 19

- **Amrut Portonova**

SINGLE MALT WHISKEY

- **Amrut Cask Strength**

  Amrut Cask Strength Single Malt Whisky is a product of many years research to produce whiskies matching world standards. The whisky is made from selected Indian barley grown at the feet of the Himalayas, nurtured by the waters flowing there and cultivated by old and traditional agricultural practises. It is carefully mashed and distilled in small batches to preserve the natural aroma and matured in oak barrels in a unique tropical condition, at an altitude of 3,000 feet above sea level at Bangalore, the garden city of India. This exclusive bottling of Amrut Cask Strength Single Malt offers the connoisseur the rare opportunity to sample this Treasure of India.
  Palate: There we go with that unique bitter-sweet overture where the oaks and barley appear joined at the hip; lovely soft oils and then a sharp jolt of blood orange citrus, which is removed by something more buttery and delicate. - 39

- **Amrut Original**

  Amrut Distillery, located in Bangalore, India is situated at an elevation of 3000 ft. The barley and water used in production are sourced from the states of Punjab and Rajasthan. The high ambient temperatures accelerate the maturation process and increase Angels' Share (annual evaporation) to 11-12%, compared to the 2% of Scotland. Most Amrut whiskies are 6 years old or younger yet still have seen remarkable success in awards. Amrut Distillery adheres to a philosophy of consistently surpassing customer expectations to maintain their standing and continually break into new markets. This expression is crafted from whisky matured in both ex-sherry (10%) and ex-bourbon barrels (90%). - 19

- **Amrut Intermediate Sherry**

  Initial maturation in a combination of ex-bourbon and new American oak casks, followed by maturation in sherry casks before returning to ex-bourbon casks for its final influence - giving the name 'Intermediate Sherry' with sherry casks as the intermediary. Taste: Cracking delivery and entirely unique in form. The structure is decidedly oak-based, but acts as no more than a skeleton from which the juicy sultana and spices drape. Salivating, too, as the barley kicks in powerfully. But the liquorice-orangey-honeycomb bourbon theme quietly shapes the flavour profile; the spices pulse and glow. - 39
